

Test Report

Received date: Jan. 15, 2026

Report date: Feb. 6, 2026

The following test sample is provided and confirmed by the client.

Client	Mbran filtra Co., Ltd.
Product name	Mbranfiltra water fiber
Model/type	Mbranfiltra water fiber
Sample lot no.	20260115

Sample Photo

Test item and methods:

1. The test solution was prepared in BenQ Dialysis Technology Corp. Biology Lab.
2. The sample was performed by 550 mL pure water.

Report No. : BDT-NT-260101-2

Report Issue Date: Jan. 15, 2026

Page : 2/2

Test result:

Test item	Before Processing	After processing	Elimination ratio
<i>Enterococcus faecalis</i> BCRC10066	4.0×10^8 CFU	4 CFU	>99.99999%

Remark:

1. The test results relate to the tested items the applicant provided at this time only. Our Lab does not make the reporting statements of conformity. Our lab does not make the reporting opinions and interpretations.
2. This report shall not be reprinted without the written approval of BenQ Dialysis Technology Corp. Biology Lab.
3. If the sample has nonconformity to the description (including the sample and test method), the customer understands the deviation condition and still requests to continue the test, then our lab will show the deviation condition in the report.
4. If the applicant does not choose the version of test guidance, the latest version of test guidance that our lab has will be used.

Approval Signatory
